The Cobra range gives you even more time to enjoy your garden

COBRA 2016

"The most comprehensive range of garden machinery in the U.K."

Cobra Garden Machinery was launched in 2013 and is supported by Henton & Chattell Ltd, giving Cobra Garden the benefit of over 80 years experience in the Garden Machinery and Horticultural Industry.

The Cobra Garden range is constantly expanding and now consists of over 100 products to cover both your domestic and professional requirements. Cobra incorporate a comprehensive range of petrol, electric and cordless lawnmowers, handheld machines and lawncare products.

Cobra Garden products are available across the U.K. throughout a network of approved specialist dealers. Cobra Garden approved dealers have the knowledge and experience to help you purchase the correct Cobra Garden product for your requirements. The dealers will also provide expert after-sales assistance when your Cobra Garden product requires servicing.

Cobra Garden's philosophy is to remain true to their trusted values of Innovation, Quality, Reliability, Value and Customer Service. Cobra Garden work hard to ensure that they offer products and services that continue to be relevant to their customers.

CONTENTS

LAWNMOWER RANGE

CORDLESS RANGE 04 - 07

Cobra 40v Li-ion Cordless Lawnmowers are designed for instant starting with no petrol or cable required. Includes 4 wheel and rear roller options.

ELECTRIC RANGE 08 - 12

The Cobra Electric Range is lightweight and features powerful motors and rear rollers on the GTRM models. Mulching & side discharge on selected models.

ORIGINAL RANGE 13 - 22

This range of powerful Lawnmowers are available in hand and self propelled models and vary in cutting widths from 16" to 22". A dedicated mulching Lawnmower is also available in the range.

PREMIUM RANGE 23 - 30

These 8 models are packed with high end features including mulching and side discharge, aluminium deck, large diameter wheels and 4 speed gearboxes on selected models.

REAR ROLLER RANGE 31 - 39

The rear roller range incorporates 11 models which feature full width rear rollers for creating a traditional striped finish.

PROFESSIONAL RANGE 40 - 46

Cast Aluminium Decks, Blade Brake Clutch, Shaft Drive and Fan Assisted Collection are just a few of the features available in this range.

WHEELED TRIMMER

47

PETROL HANDHELD RANGE

48 - 66

The range includes 9 Brushcutters with loop and bike type handles, 2 Multi-Tool systems, 1 Hedgetrimmer, 2 Long Reach Hedgecutters, Trimmer, 4 Chainsaws, Blower / Vac and a Backpack Blower.

LAWNCARE RANGE

84 - 99

The range includes 2 petrol Cultivators, 2 electric and 2 petrol Scarifiers, 2 Log Splitters, 4 Hand Carts, 2 Trailers, 3 Spreaders, 4 Sack Trolleys and a Garden Roller.

Cordless lawnmowers powered by 40v Li-ion

Cordless Lawnmower Range

The three 40v cordless models are designed for instant starting with no fuel or cables required. These feature rich Lawnmowers include single-lever height adjustment, mulching, side discharge or rear roller cutting systems and are ideal for small to medium gardens. The 40v Li-ion batteries are also compatible with the Cobra range of cordless handheld machines.

Range Highlights

- 40v Lithium-ion Samsung Batteries
- 16" - 18" Cutting Widths
- Hand and Self Propelled Drives
- 50ltr - 60ltr Grass Bag Capacities
- 4 Wheeled & Rear Roller Options
- Batteries fit 40v Handheld Cordless Range

COBRA Cordless Range

16" - 18" 40v Lithium-ion Cordless Lawnmowers

LI-ION
40v Lithium-ion

Expertly Powering Cobra Mowers

1 40v Li-ion Batteries

The Cobra Li-ion cordless Lawnmowers are powered by Samsung 40v Lithium-ion batteries offering a quiet, yet powerful and lightweight combination.

The Cobra 40v Lithium-ion battery technology suffers from no self-discharge and has no memory effect. Each battery has a run time of up to 30 minutes when used in ideal grass cutting conditions.

Even More Options

2 Mulch / Side Discharge
Selected models come with a mulch plug and the MX46S40V has a side discharge facility to enable you to mulch your grass or discharge clippings onto the lawn.

3 Grass Bag Full Indicator
To make life even easier, Cobra have equipped this range with a grass bag full indicator system. This indicates when your bag is full and ready to be emptied, eliminating grass being spilled.

4 Battery Power LED Indicator
The Cobra Li-ion cordless range of Lawnmowers come equipped with a battery power indicator which is conveniently located between the handles at the top of the Lawnmower.

COBRA MX4140V

16" 40v Li-ion Cordless Lawnmower

The Cobra MX4140V cordless Lithium-ion Lawnmower allows you to get more done without the need for petrol or electrical cables. The MX4140V is hand propelled, has a quality metal deck and 7 cutting heights.

Specification

- 1x 40v Li-ion Samsung Battery
- 41cm / 16" Cutting Width
- 25 - 75mm 7 Stage Adjustment
- 4.0Ah Battery Capacity
- 50ltr Grass Bag Capacity
- Up to 30mins Run Time
- Approx 90mins Charge Time
- Mulch Plug Included

COBRA RM4140V

16" 40v Li-ion Cordless Lawnmower with Rear Roller

Create a traditional striped lawn without the need for petrol or electrical cables with the Cobra RM4140V Lithium-ion Lawnmower with Rear Roller. The RM4140V is hand propelled, has a quality metal deck and 7 cutting heights.

Specification

- 1x 40v Li-ion Samsung Battery
- 41cm / 16" Cutting Width
- 20 - 75mm 7 Stage Adjustment
- 4.0Ah Battery Capacity
- Hand Propelled
- 50ltr Grass Bag Capacity
- Up to 30mins Run Time
- Approx 90mins Charge Time

SAMSUNG

Expertly powering Cobra Lawnmowers

Cobra's 40v Li-ion system consists of a range of 3 Lawnmowers that come complete with 1 or 2 batteries and 3 handheld garden tools. All Lawnmowers and garden tools can all be powered from a standard 40v Samsung battery and charger system.

Additional Cobra 40v Lithium-ion batteries and chargers are available:

- 40v Lithium-ion Battery (Part No: 40V4AHLI)
- 40v Lithium-ion Charger (Part No: 40V2AHCHARGER)

Using Cobra 40v Li-ion battery technology means the Lawnmower is always ready to use, suffers from no self discharge and has no memory effect.

Each battery has a run time of up to 30 minutes when used in ideal cutting conditions.

The Cobra RM4140V Lawnmower comes equipped with a full width rear roller. This roller helps to produce a traditional striped finish and give you the ability to mow right up to the edge of flowerbeds and borders.

COBRA MX46S40V

18" 40v Li-ion Self Propelled Cordless Lawnmower

The MX46S40V is self propelled, has mulching, side and rear discharge options and 7 cutting heights. This cordless Lithium-ion Lawnmower allows you to get more done without the need for petrol or electrical cables.

Specification

- 2x 40v Li-ion Samsung Batteries
- 46cm / 18" Cutting Width
- 25 - 75mm 7 Stage Adjustment
- 60ltr Grass Bag Capacity
- 4-in-1 Collection System
- Up to 30mins Run Time
- Approx 90mins Charge Time
- 4.0Ah Battery Capacity

Mulch plug and side discharge facility - mulch your grass or disperse straight onto the lawn.

With 2 40v Li-ion batteries included you can cut larger lawn areas with no down time.

The conveniently positioned power indicator allows easy monitoring of both batteries.

Powerful motors and a traditional striped finish

Electric Lawnmower Range

The Cobra Electric Range is lightweight and features powerful motors and rear rollers on the GTRM models, with mulching on selected models. The easy to use single height adjuster and integrated rear roller on the GTRM range effortlessly gives your lawn the perfect traditional striped finish.

Range Highlights

- 1200W - 1800W Motors
- 13" - 17" Cutting Widths
- 40ltr - 60ltr Grass Bag Capacities
- Grass Bag Full Indicators
- Rear Rollers on selected models
- 20mm - 75mm 7 Stage Height of Cut

GTRM
ELECTRIC LAWNMOWERS

*Selected Models Only

Mulching Lawnmowers

1 Mulching System

Selected GTRM models come equipped with a mulch plug to enable you to mulch your grass clippings back into the lawn.

Mulching Lawnmowers recycle the grass by finely cutting and re-cutting the clippings. As the clippings decompose, nutrients and fertilisers are returned to the soil meaning you can cut the grass and fertilise at the same time.

Single Lever Height of Cut

2 20mm - 75mm 7 Stage Adjustment

The Cobra GTRM range have 7 adjustable cutting heights ranging from 20mm for a superb low finish, up to 75mm for tackling longer grass.

All this is achieved by simply using the single height of cut adjustment lever. Depending on the height of your grass, you can easily and efficiently adjust the cutting height to suit.

Traditional Striped Finish

3 Rear Roller

The GTRM range of electric mowers from Cobra all come equipped with a rear roller to help create a traditional striped finish on your lawn.

The roller also gives you the ability to mow right up to the edges of flowerbeds and borders. The rear roller supports the Lawnmower when the front wheels are in line with the border edge.

COBRA GTRM34

13" Electric Lawnmower with Rear Roller

The Cobra GTRM34 electric Lawnmower is lightweight and features a powerful 1200W motor. The easy to use single height adjuster and an integrated rear roller effortlessly gives your lawn the perfect striped finish.

Specification

- 1200W Motor
- Hand Propelled
- 34cm / 13" Cutting Width
- 40ltr Grass Bag Capacity
- 20 - 75mm 7 Stage
- Cam Lock Handlebars
- Rear Roller
- Grass Bag Full Indicator

For Tackling Larger Jobs

Self Propelled Drive System

The Cobra MX46SPE electric Lawnmower comes equipped with a self propelled drive system for added comfort and ease of operator use.

The self propelled system takes all the effort out of pushing your mower, meaning you can maintain your lawn with ease.

Powerful Motor

1800W High Torque Motor

The powerful 1800W motor means you can tackle any task with confidence, whilst producing a beautiful finish to your lawn.

Powered by a high torque, high performance cutting system which maintains a quality cut. Even long or damp grass can be cut without the risk of stalling the Lawnmower.

Even More Options

Side Discharge System

If you don't want to collect your grass cuttings or your lawn has become overgrown, you can use the side discharge function.

Simply lift the side blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing.

The combination of power, style & reliability

Mulching System The greener way to cut your lawn

The MM51B is a mulching mower which enables you to mulch your grass clippings back into the lawn. Mulching Lawnmowers recycle the grass by finely cutting and re-cutting the clippings. As the clippings decompose, nutrients and fertilisers are returned to the soil meaning you can cut the grass and fertilise at the same time.

Side Discharge System

Side discharge your grass with Cobra

If you don't want to mulch your grass or your lawn has become overgrown, the MM51B comes with a side discharge function. Simply lift the side blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing.

COBRA MM51B

COBRA MX46SPCE

18" Electric Start Lawnmower Powered by Cobra

The premium Cobra MX46SPCE petrol Lawnmower is powered by a Cobra DG450 OHV Electric Start engine. This Lawnmower has a key start, a 4-in-1 cutting system and is self propelled to alleviate user fatigue.

Specification

- Cobra DG450 OHV Electric Start
- 46cm / 18" Cutting Width
- 25 - 75mm 7 Stage Adjustment
- Mulching / Side Discharge
- Self Propelled
- 60ltr Grass Bag Capacity
- 4-in-1 Collection System
- 135cc Displacement

Powered by Cobra

135cc Cobra DG450 OHV Engine

The Cobra DG450 engine offers a quiet, yet powerful combination for a variety of demanding applications.

It incorporates the latest engine design technologies ensuring optimal torque and efficiency. The DG450 powers Cobra lawnmowers for gardens up to 600sq/m.

Mulching Lawnmower

Mulching System

Equipped with a mulch plug to enable you to mulch your grass clippings back into the lawn. Mulching Lawnmowers recycle the grass by finely cutting and re-cutting the clippings. As the clippings decompose, nutrients and fertilisers are returned to the soil meaning you can cut the grass and fertilise at the same time.

Even More Options

Side Discharge System

Simply lift the side blanking plate and insert the side discharge chute. The grass will now be discharged in neat lines to the side of where you are mowing.

This is ideal if you don't want to collect your grass cuttings or your lawn has become overgrown.

Key Start for even easier starting

As well as a standard recoil pull-start, there's also an electric key start to make starting your Cobra MX46SPCE Lawnmower even easier.

Electric Start eliminates the necessity of pulling the recoil rope, replacing it with an electric ignition key starter. This can help reduce wear and tear on the engine. A charger is supplied to keep the battery ready for use.

COBRA MX46SPH

18" Self Propelled Lawnmower Powered by Honda

The premium Cobra MX46SPH petrol 4-in-1 Lawnmower is powered by a Honda GCV135E engine. This mower is self propelled and can either mulch, side discharge, rear discharge or collect.

Specification

- Honda GCV135E Engine

ALUMINIUM DECK

With Aluminium Deck for the ultimate in durability

Cobra Aluminium Deck Lawnmowers offer outstanding longevity and have superior collection performance.

The Cobra MX515SPBI wheeled petrol Lawnmower has a hard wearing, cast aluminium deck which is the popular choice for both professional and domestic users alike.

The aluminium deck has many other benefits as well as its durability, which include: less susceptible to corrosion, easy to clean and a longer working life.

Quick Battery Charging

instartis

InStart's battery can be quickly charged from flat so you don't have to wait too long until your mower is ready to go!

More than 50 starts from a fully charged battery.

Powerful B&S 675IS Engine

instartis

InStart from Briggs & Stratton delivers the next generation in easy starting. Ingenious integration of engine and battery gives you cutting power at a touch. No more pulling the recoil to start your Lawnmower.

Push Button Starting System

instartis

Proven Lithium-ion battery technology ensures simple instant starting over-and-over again without constant recharging. Push-button is the easiest starting ever. InStart technology eliminates the need for the traditional recoil starting system.

A beautiful, traditional striped finish

Rear Roller Lawnmower Range

The Cobra Rear Roller Range of petrol Lawnmowers are powered by Briggs & Stratton, Cobra and Honda engines. The range incorporates 11 models which feature full width rear rollers for creating a traditional striped finish, hand and self propelled drive systems and 16" to 18" cutting widths.

Range Highlights

- Briggs & Stratton, Cobra and Honda Engines
- 16" - 18" Cutting Widths
- Hand and Self Propelled Drives
- Electric Start on Selected Models
- 60ltr Grass Bag Capacities
- 17mm - 75mm 6 Stage Height of Cut

COBRA
With Rear Roller

COBRA Rear Roller Range

16" - 18" Petrol Rear Roller Lawnmowers

Traditional Striped Finish

1 Full Width Rear Roller

The Rear Roller Range of petrol Lawnmowers from Cobra all come equipped with a full width rear roller to produce a traditional striped finish.

They also give you the ability to mow right up to the edge of flowerbeds and borders. The rear roller supports the Lawnmower when the front wheels are in line with the border edge.

Single Lever Height of Cut

2 17mm - 75mm 6 Stage Adjustment

The Cobra Rear Roller Range have fully adjustable 6 cutting heights ranging from 17mm for a superb low finish, up to 75mm for tackling longer grass.

All this is achieved by simply using the single height of cut adjustment lever which has been conveniently positioned next to the rear roller.

Cobra Drive Systems

3 Hand Propelled

Selected petrol Lawnmowers in the Rear Roller Range come equipped with a hand propelled drive system for complete operator freedom.

Self Propelled

The self propelled system takes all the effort out of pushing your Lawnmower, meaning you can maintain your lawn and not feel exhausted when the grass cutting is complete.

COBRA RM40C

16" Rear Roller Lawnmower Powered by Cobra

The Cobra RM40C petrol Lawnmower is powered by a 98.5cc Cobra DG350 OHV engine. The RM40C cuts down to 17mm, is hand propelled and has a rear roller for a traditional striped finish.

Robust lawnmowers for professional use

Professional Lawnmower Range

The Cobra Professional Range of petrol Lawnmowers are powered by Honda and Subaru engines. The 7 models in the range come in either 4 wheeled or rear roller options and are suitable for both the professional and domestic user. Cast Aluminium Decks, Blade Brake Clutch, Shaft Drive and Fan Assisted Collection are just a few of the features you can expect from Cobra Professional Lawnmowers.

Range Highlights

- Subaru and Honda Engines
- 19" - 21" Cutting Widths
- Self Propelled and Hydrostatic Drives
- 4 Wheeled and Rear Roller Options
- 70ltr - 75ltr Grass Bag Capacities
- Reinforced Deck Liner and Bumper Bars

COBRA Professional Range

19" - 21" Petrol Professional Lawnmowers

Superior Grass Collection

1 Cast Aluminium Deck

The Cast Aluminium Deck has many benefits which include being less susceptible to corrosion, easy to clean, durability and a longer working life.

2 Fan Assisted Collection

The integrated fan works like a vacuum to further improve the collection. This fan assisted collection system is also efficient in the removal of other garden debris such as leaves.

Ideal for Professional Mowers

3 Blade Brake Clutch

Blade Brake Clutch System stops the blades from turning, but keeps the engine running.

4 Powerful Engines

The Cobra Professional Range of Lawnmowers are powered by Honda or Subaru engines incorporating the latest engine design technology. This ensures the optimal torque and efficiency, resulting in lower emissions.

Traditional Striped Finish

5 Steel Rear Roller

Selected Professional Lawnmowers have a heavy steel rear roller. The split differential drive prevents slipping on damp ground and ensures the lawn won't be scalped whilst turning.

6 Shaft Driven

Shaft driven rather than the more traditional belt or chain drive, so will cope easily with long periods of intensive use in the most challenging conditions.

POWERED by HONDA™

COBRA RM53SPH-PRO

21" Rear Roller Lawnmower Powered by Honda

The Cobra RM53SPH-PRO petrol Lawnmower with Hi-Speed gearbox is powered by a Honda GXV160 engine. It has a 21" cutting width and is built for the demands of the domestic and professional gardener.

COBRA WT56B

22" B&S Powered Wheeled Trimmer

The Cobra WT56B is powered by a Briggs & Stratton 750EX Series Ready Start engine and incorporates a 22" cutting width. The WT56B will help to make light work of the most hard to reach areas of overgrown or rough grass.

Specification

- | | |
|--------------------------------|---------------------------|
| ■ B&S 750EX Series Ready Start | ■ Adjustable Cutting Head |
| ■ 56cm / 22" Cutting Width | ■ 350mm Wheel Diameter |
| ■ 38 - 76mm Cutting Height | ■ 4mm Heavy Duty Line |
| ■ 3600rpm Rotating Speed | ■ Weighs 33kg |

Powered by Briggs & Stratton

161cc B&S 750EX Series

The 750EX Series™ DOV engine delivers breakthrough performance driven by technology that makes a difference you can see, feel and hear. The patented Direct Overhead Valve (DOV) engine delivers more torque, improved sound quality, and less noise and vibration than competitive engines in the same class.

Adjustable Trimming Height

38 - 76mm Cutting Height

The cutting head can be adjusted in height from 38 - 76mm allowing the user to pick the optimum height for the task and the trimmer line can be changed easily in seconds.

Rugged & Durable

Large Diameter Wheels

The Cobra WT56B Wheeled Trimmer has large heavy-duty 350mm wheels. The thick rubber tyres are spoked for extra strength meaning you can clear up any overgrown patches of rough grass or weeds. Even awkward uneven and uncared for areas can be tackled with the Cobra WT56B versatile trimmer.

A powerful, handheld tool for every job

The Cobra Petrol Handheld Range

The Cobra range of handheld petrol products are powered by Kawasaki or Cobra engines to give even more power at your fingertips. The range includes 9 petrol Brushcutters with loop or bike type handles, 4-in-1 Multi-Tool system, 5-in-1 Multi-Tool system, Hedgetrimmer, 2 Long Reach Hedgetrimmers, Grass Trimmer, 4 Chainsaws, Blower / Vac and a Backpack Blower.

Range Highlights

- Kawasaki and Cobra Engines
- 25cc - 62cc Displacements
- Bike and Loop Handles
- Oregon Bar & Chains
- Double Sided Blades
- Articulating Cutting Heads

Powered by Cobra

26cc Cobra Engine

This 26cc engine provides all the power your Cobra Grass Trimmer needs. The 2-stroke engine produces consistently strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and industry leading low emission levels.

Operator Feel & Manoeuvrability

Bent Shaft

The Cobra GT260C petrol Grass Trimmer comes complete with a bent shaft.

A combination of loop handle and bent shaft allows the two-string nylon cutting head to be guided over the working area to neatly trim grass and weed growth precisely.

Comfort, Balance and Control

D-Loop Handle

The Cobra GT260C is a bent shaft Grass Trimmer with loop handle for increased operator feel and manoeuvrability.

When combined with the included single shoulder harness, this Grass Trimmer is ideal for tackling large, demanding tasks.

COBRA GT260C

26cc Bent Shaft Grass Trimmer with Cobra Engine

The Cobra GT260C is built to tackle domestic gardening tasks.

Powered by a 26cc Cobra engine and incorporating a bent shaft, the GT260C will help to make light work of the most hard to reach areas.

Specification

- | | |
|------------------------------|---------------------------|
| ■ Cobra Engine | ■ Loop Handle |
| ■ 26cc Displacement | ■ Bent Shaft |
| ■ 0.77kW Max Power | ■ Single Shoulder Harness |
| ■ Premium Japanese Line Head | ■ Weighs 4.8kg |

Multi-Tools - For all your gardening needs

Petrol Multi-Tool Range

Cobra Multi-Tools are extremely robust and are equipped with loop type handles. They are powered by either Kawasaki or Cobra engines ranging between 25cc - 26.3cc. These 2-stroke engines provide improved acceleration, more power and the ability to function when held in any position.

Range Highlights

- Kawasaki and Cobra Engines
- 4-in-1 or 5-in-1
- Grass Trimmer Attachment
- Brushcutting Tri-Blade Attachment
- Pole Pruner Attachment
- Hedgetrimmer Attachment

COBRA MT250C

4-in-1 Petrol Multi-Tool System

The Cobra MT250C 4-in-1 Multi-Tool is powered by a 25cc engine. It includes 4 quality attachments - Grass Trimmer, Brushcutter, Pole Pruner and Articulating Long Reach Hedgetrimmer.

Specification

- | | |
|---------------------------|---------------------------------------|
| ■ Cobra Engine | ■ Grass Trimmer (72cm Shaft) |
| ■ 25cc Displacement | ■ H'trimmer (72cm Shaft) (43cm Blade) |
| ■ Single Shoulder Harness | ■ Pole Pruner (72cm Shaft) (30cm Bar) |
| ■ Brushcutting Tri-Blade | ■ Optional Extension Shaft Available |

Hedgetrimmer Attachment

135° Articulating head for multiple angles
Comes complete with a 72cm shaft and is fitted with a 43cm / 17" double sided cutting blade with 30mm tooth spacing.

Pole Pruner Attachment

Pruning of hard to reach branches
Comes complete with a 72cm shaft and is fitted with a 30cm / 12" high quality Chainsaw bar and chain.

Brushcutter (Nylon Head)

Double line for long grass
Comes complete with a nylon line tap 'n' go Grass Trimmer attachment for mowing and thinning.

Brushcutter (Metal Blade)

Tri-Blade for thicker undergrowth
The heavy duty metal blade makes clearing larger areas of brambles, shrubs and saplings even easier.

COBRA MT270K

5-in-1 Petrol Multi-Tool System

The Cobra MT270K 5-in-1 Multi-Tool is powered by a 26.3cc Kawasaki engine. It includes 4 quality attachments - Grass Trimmer, Brushcutter, Pole Pruner and Articulating Long Reach Hedgecutter together with an extension shaft for increased reach.

Specification

- 26.3cc Kawasaki TJ27E
- 0.77kW Max. Power
- Single Shoulder Harness
- Brushcutting Tri-Blade
- Grass Trimmer (75cm Shaft)
- Pole Pruner (72cm Shaft) (30cm Bar)
- H'trimmer (72cm Shaft) (65cm Blade)
- Extension Shaft (80cm Shaft)

Kawasaki

Brushcutter (Nylon Head)

Double line for long grass

Comes complete with a nylon line tap 'n' go Grass Trimmer attachment for mowing and thinning.

Brushcutter (Metal Blade)

Tri-Blade for thicker undergrowth

The heavy duty metal blade makes clearing larger areas of brambles, shrubs and saplings even easier.

Hedgecutter Attachment

135° Articulating head for multiple angles

Comes complete with a 72cm shaft and is fitted with a 43cm / 17" double sided cutting blade with 30mm tooth spacing.

Pole Pruner Attachment

Pruning of hard to reach branches

Comes complete with a 72cm shaft and is fitted with a 30cm / 12" high quality Chainsaw bar and chain.

Kawasaki

Cobra, Powered by Kawasaki Engines

The Kawasaki 2-stroke engine produces consistently strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and industry leading low emission levels.

Powerful, efficient and reliable brushcutters

Petrol Brushcutter Range

Cobra Brushcutters are extremely robust with bike or loop type handles. They are powered by either Kawasaki or Cobra engines ranging between 26cc - 53cc. These 2-stroke engines provide improved acceleration, more power and the ability to function when held in any position.

Range Highlights

- Kawasaki and Cobra Engines
- 26cc - 53cc
- Bike and Loop Handles
- 0.5ltr - 1.1ltr Fuel Tank Capacities
- Nylon Head and Metal Tri-Blades
- Single and Double Shoulder Harnesses

COBRA Powered Brushcutters

26cc and 33cc Cobra Powered Brushcutters

Powered by Cobra Engines

1 26cc and 33cc Cobra Engine

The 26cc and 33cc engines provide all the power your Brushcutter needs.

The 2-stroke engine produces consistently strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and industry leading low emission levels.

Comfort, Balance and Control

2 D-Loop Handle and Straight Shaft

The loop handle and straight shaft provide increased operator feel and manoeuvrability.

4 Cutter Safety Guard

Cobra Brushcutters come as standard with a robust cutter guard for increased operator safety.

Tap 'n' Go Cutting Head & Blade

5 Nylon Head and Tri-Blade

Complete with tap 'n' go double line cutting head for mowing and thinning. The quality nylon line is automatically readjusted by simply tapping the cutting head on the ground.

The metal tri-blade makes clearing larger areas of brambles, shrubs and saplings even easier.

Kawasaki Powered Brushcutters D-Loop / Bike Handles

26.3cc - 53cc Kawasaki Powered Brushcutters

COBRA BC260C

26cc Brushcutter with Cobra Engine

The Cobra BC260C is a robust Brushcutter with a loop handle. It's 26cc 2-stroke Cobra engine provides faster acceleration and more power.

Specification

- 26cc Cobra Engine
- D-Loop Handle
- 0.77kW Max Power
- Single Shoulder Harness
- Nylon Head & Metal Blade
- 7kg Weight

COBRA BC330C

33cc Brushcutter with Cobra Engine

The 33cc 2-stroke Cobra engine provides faster acceleration and more power for the Cobra BC330C Brushcutter. Equipped with loop handle.

Specification

- 33cc Cobra Engine
- D-Loop Handle
- 0.77kW Max Power
- Single Shoulder Harness
- Nylon Head & Metal Blade
- 8.5kg Weight

Powered by Kawasaki Engines

1 26.3cc - 53cc Kawasaki Engine

Kawasaki engines provide all the power your Cobra Brushcutter needs.

The 2-stroke engine produces consistently strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and industry leading low emission levels.

Comfort, Balance and Control

2 D-Loop Handles

The loop handle provides increased operator comfort, balance and control.

3 Bike Handles

Cobra bike handle Brushcutters are ideal for tackling more time consuming, larger jobs. The handle position can be set by loosening one wing nut without any tools.

Tap 'n' Go Cutting Head & Blade

4 Nylon Head & Tri-Blade

Complete with tap 'n' go double line cutting head for mowing and thinning. The quality nylon line is automatically readjusted by simply tapping the cutting head on the ground.

The metal tri-blade makes clearing larger areas of brambles, shrubs and saplings even easier.

COBRA BC270KB

26.3cc Brushcutter with Kawasaki Engine

The Cobra BC270KB is a robust Brushcutter with loop handle. It's 26.3cc Kawasaki engine provides strong power delivery.

Specification

- 26.3cc Kawasaki Engine
- 0.77kW Max Power
- Nylon Head & Metal Blade
- D-Loop Handle
- Single Shoulder Harness
- 7.5kg Weight

COBRA BC270K

26.3cc Brushcutter with Kawasaki Engine

With its bike handles and 26.3cc Kawasaki 2-stroke engine, the Cobra BC270K is a powerful Brushcutter complete with nylon head and blade.

Specification

- 26.3cc Kawasaki Engine
- 0.77kW Max Power
- Nylon Head & Metal Blade
- Bike Handle
- Double Shoulder Harness
- 8kg Weight

COBRA BC350K

35cc Brushcutter with Kawasaki Engine

The 35cc 2-stroke Kawasaki engine provides faster acceleration and more power for the BC350K Brushcutter. Equipped with bike handle.

Specification

- 35cc Kawasaki Engine
- 1.03kW Max Power
- Nylon Head & Metal Blade
- Bike Handle
- Double Shoulder Harness
- 8.5kg Weight

COBRA BC350KB

35cc Brushcutter with Kawasaki Engine

The 35cc 2-stroke Kawasaki engine provides relentless raw power for the BC350KB Brushcutter. Equipped with loop handle.

Specification

- 35cc Kawasaki Engine
- 1.03kW Max Power
- Nylon Head & Metal Blade
- D-Loop Handle
- Single Shoulder Harness
- 7.8kg Weight

COBRA BC450K

45cc Brushcutter with Kawasaki Engine

The Cobra BC450K is powered by a huge 45cc Kawasaki 2-stroke engine. Ideal for easily clearing areas of tough growth.

Specification

- 45cc Kawasaki Engine
- 1.42kW Max Power
- Nylon Head & Metal Blade
- Bike Handle
- Double Shoulder Harness
- 9.5kg Weight

COBRA BC450KB

45cc Brushcutter with Kawasaki Engine

The Cobra BC450KB has a Kawasaki 45cc engine giving consistently strong power delivery together with state of the art engine technology.

Specification

- 45cc Kawasaki Engine
- 1.42kW Max Power
- Nylon Head & Metal Blade
- D-Loop Handle
- Single Shoulder Harness
- 8kg Weight

COBRA BC530K

53cc Brushcutter with Kawasaki Engine

The most powerful Cobra Kawasaki powered Brushcutter in the Cobra range. Powered by an uncompromising 53cc of raw power.

Specification

- 53cc Kawasaki Engine
- 2.0kW Max Power
- Nylon Head & Metal Blade

COBRA LRH26C

Powerful 26cc Handheld Petrol Hedgetrimmer

The Cobra LRH26C petrol Long Reach Hedgetrimmer powered by a Cobra engine is built to tackle the most awkward jobs. With a 135° articulating head and tooth spacing of 30mm, the LRH26C will make light work of long and tall hedges.

Specification

- Cobra 2-Stroke Engine
- 26cc Displacement
- 62cm Double Sided Blade
- 30mm Tooth Spacing
- D Loop Handle
- Single Shoulder Harness
- 135° Articulating Head
- Overall Length 251cm

Experitly Powered By
COBRA **CARTICULATING**

Precise Cutting Every Time

1 62cm Double Sided Blade

Comes with a 62cm double sided reciprocating cutting blade, with a large 30mm tooth spacing. Double sided blades are more suitable for shaping.

2 135° Articulating Cutting Head

The Cobra LRH26C Long Reach Hedgetrimmer comes equipped with a 62cm blade which articulates through 135°, giving greater versatility when cutting and trimming your hedges.

Powerful Cobra Engine

3 26cc Cobra 2-Stroke Engine

The 26cc engine on the Cobra LRH26C Long Reach Hedgetrimmer provides all the power you need.

The 2-stroke engine on the Cobra LRH26C produces consistently strong power delivery together with state of the art engine technology, whilst achieving reduced fuel consumption and industry leading low emission levels.

Comfort, Balance & Safety

4 Ergonomic Controls

The ergonomically positioned controls not only make operator use more comfortable, but more importantly, as safe as possible.

5 Safety as Standard

The Protective Guard on the Cobra LRH26C helps shield the operator from getting too close to the working end of the machine.

Kawasaki

COBRA LRH270K

26.3cc Petrol Long Reach Hedgetrimmer

The Cobra LRH270K petrol Long Reach Hedgetrimmer is built to tackle the most awkward jobs. With an articulating head and tooth spacing of 30mm, the LRH270K will make light work of long and tall hedges.

Specification

■ Kawasaki TJ27E 2-Stroke Engine	■ 30mm Tooth Spacing
■ 26.3cc Displacement	■ Overall Length 251cm
■ 0.77kW Max Power	■ 135° Articulating Head

CARTICULATING

Even easier to cut at various cutting angles

The Cobra LRH270K Long Reach Hedgetrimmer comes equipped with a 62cm blade which articulates through 135°, giving greater versatility when cutting and trimming your hedges.

By simply sliding down the collar at the top of the machine the head is released and can be adjusted to suit whichever cutting angle you wish to use. Release the collar and the head locks back into place. Ideal when tackling tall hedges.

Precise Cutting Every Time

1 62cm Double Sided Blade

Comes with a 62cm double sided reciprocating cutting blade, with a large 30mm tooth spacing. Double sided blades are more suitable for shaping, as you can alter the direction of the cut easily.

Comfort, Balance and Control

2 Ergonomic Controls

The ergonomically positioned controls not only make operator use more comfortable, but more importantly, make the LRH270K as safe to use as possible.

COBRA HT62C

Powerful 22cc Handheld Petrol Hedgetrimmer

The Cobra HT62C petrol Hedgetrimmer featuring a 62cm / 24" blade is designed for use on all types of hedges. Powered by Cobra's own 22cc 2-stroke engine and incorporating a Twist Grip Handle to help tackle the most awkward jobs.

Specification

■ Cobra 2-Stroke Engine	■ 28mm Tooth Spacing
■ 22cc Displacement	■ Magnesium Alloy Casting
■ Walbro Carburettor	■ Twist Grip Handle
■ 62cm Double Sided Blade	■ Weighs 4.6kg

Precise Cutting Every Time

1 62cm Double Sided Blade

2 Comes with a 62cm double sided reciprocating cutting blade, with a large 28mm tooth spacing and blade tip protector. Double sided blades are more suitable for shaping, as you can alter the direction of the cut easily.

Powerful Cobra Engine

3 22cc Cobra 2-Stroke Engine

This 22cc engine provides all the power your Cobra Hedgetrimmer needs. The 2-stroke engine produces consistently strong power delivery together with state of the art engine technology.

"TWIST" GRIP

The Cobra HT62C is equipped with the "Twist Grip" handle, making it easier to cut at a variety of angles with comfort and control.

Make light work of the most demanding jobs

Petrol Chainsaw Range

Cobra petrol Chainsaws are built to tackle the most demanding jobs. They come equipped with Oregon bar and chains as standard, ranging in lengths from 14" - 20". These Chainsaws are powered by Cobra engines varying between 42cc - 62cc. Whether you're pruning or cutting firewood, Cobra petrol Chainsaws are up to the job.

Range Highlights

- Cobra Engines
- 42cc - 62cc
- 14" - 20" / 35cm - 50cm Bar Lengths
- Oregon Bar and Chain
- Walbro Carburettor
- Safety Chain Brake

COBRA Petrol Chainsaws

42cc - 62cc Petrol Powered Chainsaws

Cutter Bar and Chain

1 Oregon Bar and Chain

Cobra petrol Chainsaws are fitted with Oregon bar and chains, the world's leading manufacturer and marketer of cutting chains and guide bars for Chainsaws. Known for its innovative spirit, the company focuses on manufacturing products that offer a superior competitive advantage and so fits perfectly with Cobra Chainsaws.

Safety Features

2 Safety Chain Brake

Used to stop the Chainsaw chain from rotating around the bar. Two ways to engage the chain brake: by pushing the handle forward, or by the force of inertia that occurs when the saw kicks back.

3 Walbro

The largest manufacturer of ignition and fuel management components.

COBRA Protects

All Cobra petrol Chainsaws come as standard with a carry bag. Made from high quality sturdy nylon. For safe storage and transport of all Cobra petrol Chainsaws with bar lengths up to 50cm / 20".

COBRA CS420-14

42cc / 14" Petrol Chainsaw with Cobra Engine

The Cobra CS420-14 42cc petrol Chainsaw has a 14" Oregon bar and chain. It is built to tackle the most demanding jobs.

Specification

- 42cc Cobra Engine
- 35cm / 14" Bar Length
- Oregon Bar & Chain

COBRA CS420-16

42cc / 16" Petrol Chainsaw with Cobra Engine

The CS420-16 has an increased bar length for more intensive work, is powered by a 42cc Cobra engine and has a 16" Oregon bar and chain.

Specification

- 42cc Cobra Engine
- 40cm / 16" Bar Length
- Oregon Bar & Chain

COBRA CS520-18

52cc / 18" Petrol Chainsaw with Cobra Engine

With its 18" Oregon bar and chain the Cobra CS520-18 is a versatile petrol Chainsaw with 52cc of cutting power.

Specification

- 52cc Cobra Engine
- 45cm / 18" Bar Length
- Oregon Bar & Chain

COBRA CS620-20

62cc / 20" Petrol Chainsaw with Cobra Engine

The CS620-20 is the most powerful petrol Chainsaw in the Cobra range. It comes with a 20" Oregon bar and chain and a 62cc engine.

Specification

- 62cc Cobra Engine
- 50cm / 20" Bar Length
- Oregon Bar & Chain

OREGON Bar & Chains

Cobra & Oregon, the perfect combination

Cobra petrol Chainsaws are fitted with Oregon bar and chains, the world's leading manufacturer and marketer of cutting chains and guide bars for Chainsaws.

- Telescopic Shafts
- Articulating Cutting Heads

COBRA Electric Hedgetrimmers

Powerful, Efficient Handheld & Long Reach Hedgetrimmers

Quality Double Sided Blades

1 21" & 24" Double Sided Blades

2 Equipped with durable, reliable double sided cutting blades, with large 20mm - 24mm tooth spacing.

Double sided blades are more suitable for shaping, as you can alter the direction of the cut easily.

Comfort, Balance and Safety

3 Protective Safety Guard

Come as standard with a robust cutter guard for increased operator safety.

4 Comfort Controls

The ergonomically positioned controls not only make operator use more comfortable but combined with the rotating back handle, easier to cut at a variety of angles.

Even More Features

5 Twist Grip Handle

The Cobra H60E is equipped with the "Twist Grip" handle, making it easier to cut at a variety of angles with comfort and control.

COBRA H55E

55cm Cutting Length Electric Hedgetrimmer

The Cobra H55E 600W electric Hedgetrimmer is built to tackle the most demanding jobs with its 55cm double sided blade. With a tooth spacing of 20mm the H55E will make light work of domestic hedges.

Specification

- | | |
|---------------------------|--------------------|
| ■ 600W Rated Power | ■ Mechanical Brake |
| ■ 230V-50Hz Rated Voltage | ■ LED Indicator |
| ■ 21" / 55cm Blade Length | ■ Comfort Handle |
| ■ 20mm Cutting Diameter | ■ 10m Cable Length |

COBRA H60E

60cm Cutting Length Electric Hedgetrimmer

With its 710W of power, 60cm double sided blade and 'Twist Grip' handle, the Cobra H60E Hedgetrimmer can handle all types of hedges and bushes with confidence and ease.

Specification

- | | |
|---------------------------|--------------------|
| ■ 710W Rated Power | ■ Mechanical Brake |
| ■ 230V-50Hz Rated Voltage | ■ LED Indicator |
| ■ 24" / 60cm Blade Length | ■ Rotary Handle |
| ■ 24mm Cutting Diameter | ■ 10m Cable Length |

COBRA LRH40E

Electric Powered Long Reach Hedgetrimmer

The Cobra LRH40E 500W electric Long Reach Hedgetrimmer is built to tackle the most awkward jobs. With an articulating head and tooth spacing of 20mm, the LRH40E will make light work of long and tall hedges.

COBRA GT600E

Powerful 600W Electric Grass Trimmer

The Cobra GT600E is a high performance electric Trimmer. It has a powerful 600W efficient motor, a 30cm cutting width and has a rotating head for easily trimming lawn edges.

Specification

- | | |
|------------------------------|--------------------------|
| ■ 30cm Cutting Width | ■ 10m Cable Length |
| ■ 600W Motor 230V-50Hz | ■ 90° Lawn Edging |
| ■ Tap & Go Dual Line Feed | ■ 1.5mm Twisted Line |
| ■ Telescopic Height Adjuster | ■ Plant Protection Guard |

Precise Cutting Every Time

1 16" Double Sided Blade

Equipped with a 16" double sided cutting blade, with a large 20mm tooth spacing.

Double sided blades are more suitable for shaping, as you can alter the direction of the cut without moving around as much.

Various Cutting Angles

2 Articulating Head

Equipped with a 40cm blade which articulates through 90°. By simply pressing and holding the button on the top of the machine the head is released and can be adjusted. Release the button and the head locks into place.

For a Longer Reach

3 Easy Extending Shaft

The Cobra LRH40E electric Long Reach Hedgetrimmer has an extending shaft for reaching the hard to get to areas around the garden. It extends to a maximum of 1.8m. Ideal when tackling tall hedges.

High Performance Edging

Complete 90° Lawn Edging

Electric Grass Trimmers are good for use on small lawns, overgrown lawns and areas of long grass next to walls and trees. The Cobra GT600E electric Grass Trimmer has a 90° tilting cutter head which makes for effortless, speedy edging.

Increased Operator Control

Integrated Edging Roller Wheel

For easily trimming borders and lawn verges, just pull back the collar to rotate the head through 45°.

The integrated guide wheel will then help you achieve a clean cut and beautiful finish every time.

Comfortable Trimming

Extending Telescopic Shaft

Complete with a telescopic shaft for increased operator feel and manoeuvrability.

The telescopic shaft means that Cobra's GT600E electric Grass Trimmer can be set up to suit any operator.

Cobra Chainsaws are quite simply "a cut above the rest"

Electric Chainsaw Range

Cobra electric Chainsaws are built to tackle the most demanding jobs. They come equipped with Oregon bar and chains as standard, ranging in bar lengths from 35cm - 45cm. These Chainsaws are powered by motors varying between 1800W - 2400W. Whether you're pruning or cutting firewood, Cobra electric Chainsaws are up to the job.

Range Highlights

- 1800W - 2400W Rated Power
- 230V-50Hz Rated Voltage
- 35cm - 45cm Bar Lengths
- Oregon Bar and Chain
- Over-Load Protection
- 10m Cable Length

COBRA Electric Chainsaws

1800W - 2400W Electric Powered Chainsaws

Cutter Bar and Chain

1 Oregon Bar and Chain

Cobra electric Chainsaws are fitted with Oregon bar and chains, the world's leading manufacturer and marketer of cutting chains and guide bars for Chainsaws. Known for its innovative spirit, the company focuses on manufacturing products that offer a superior competitive advantage and so fits perfectly with Cobra Chainsaws.

COBRA CS35E

1800W / 14" Electric Powered Chainsaw

The Cobra CS35E 1800W electric Chainsaw is built to tackle the most demanding jobs with its 14" Oregon bar and chain.

Specification

- 1800W Rated Power
- 35cm / 14" Bar Length
- Oregon Bar & Chain

COBRA CS40E

2000W / 16" Electric Powered Chainsaw

With its larger 16" Oregon bar and chain the Cobra CS40E is equipped to handle more intensive work with 2000W of pure power.

Specification

- 2000W Rated Power
- 40cm / 16" Bar Length
- Oregon Bar & Chain

COBRA CS45E

2400W / 18" Electric Powered Chainsaw

The CS620-20 is the most powerful electric Chainsaw in the Cobra range. It comes with an 18" Oregon bar and chain and a 2400W motor.

Specification

- 2400W Rated Power
- 45cm / 18" Bar Length
- Oregon Bar & Chain

Electric Chainsaw Range Overview

	CS35E	CS40E	CS45E
Motor Rated Power:	1800W	2000W	2400W

COBRA P20E

750W Electric Powered Pole Pruner

The Cobra P20E 750W electric Pole Pruner is built to tackle the most awkward jobs. When you're pruning hard to reach areas, the P20E with its 8" Oregon bar and chain is up to the job.

For a Longer Reach

1 Easy Extending Shaft

Cobra P20E electric Pole Pruner has an extending shaft for reaching the hard to get to areas around the garden.

The machine will extend to a maximum length of 2.7m.

Cutter Bar and Chain

2 Oregon Bar and Chain

The P20E is fitted with an Oregon bar and chain, the world's leading manufacturer of cutting chains and guide bars. Known for its innovative spirit, the company focuses on manufacturing products that offer a superior competitive advantage and so fits perfectly with Cobra.

Comfort, Balance and Control

3 Ergonomic Controls

The ergonomically positioned controls not only make operator use more comfortable, but more importantly, make using the Cobra P20E Pole Pruner safe.

COBRA BV2600

Electric Powered Blower Vacuum

The Cobra BV2600 electric Blower Vacuum has the added features of a power mulching system and a large 45ltr collection bag. This model has a high 270km/h airspeed and quick change blow to vac system.

Specification

- 2600W Rated Power
- 10:1 Mulching Ratio
- 230V-50Hz Rated Voltage
- 45ltr Dust Bag Capacity
- 15000/min No-Load Speed
- 10m Cable Length
- 270km/h Wind Speed
- Quick Change Blow to Vac

Q change SYSTEM

Cobra BV2600 with 'Quick change' system

The lightweight Cobra BV2600 electric Blower Vac has been designed to make clearing your garden a simple and effortless task. The ergonomically positioned 'quick exchange' lever means you can convert from collect to blow in an instant.

Feature Packed Blower / Vac

Tidying your garden has never been so easy

The front roller wheel increases the machines manoeuvrability and provides operator support for long periods of use. This versatile gardening tool boasts increased user control due to its variable speed selection.

COBRA QS2500

Powerful 2500W Quiet Drum Shredder

The QS2500 Quiet Drum Shredder is powered by a 2500W electric motor and is ideal for shredding garden waste up to 40mm in diameter. Supplied with a practical plunger for increased throughput on heavier loads.

Specification

- 2500W Electric Motor
- 10m Cable Length
- Drum Gear Shredding System
- Transport Wheels
- Integral 50ltr Collection Box
- Auto-Feed Function
- Large 40mm Cutting Capacity
- Includes Plunger

Comfort, Balance and Control

Ergonomic Controls

The Cobra QS2500 has been designed to make shredding garden waste a simple and effortless task.

The ergonomically positioned controls not only make operator use more comfortable, but more importantly, make using your Cobra Shredder as safe as possible.

Increased Collection

50ltr Collection Box

The Cobra QS2500 electric Quiet Drum Shredder comes equipped with a 50ltr collection box, ideal for collecting large amounts of garden waste before the need for emptying.

For added safety, a switch automatically cuts the motor if the box is removed.

For Speed and Ease

Practical Plunger

The Cobra QS2500 Quiet Drum Shredder is supplied with a practical plunger to help feed through the waste material and to speed up the shredding of heavier loads.

Cordless machines powered by Li-ion technology

24v and 40v Cordless Handheld Range

The Cobra Li-ion 24v and 40v cordless range are both powerful and efficient to make maintaining your garden even easier without the need for petrol or cables.

The range includes 1 Chainsaw with Oregon bar and chain, 2 Hedgetrimmers, a Blower and 2 Grass Trimmers. As a completely emission-free cordless power tool, you can use your fully charged Cobra cordless machine wherever and whenever you like.

Range Highlights

- 24v & 40v Lithium-ion Batteries
- 40v One Battery Fits All System
- 24v with Turbo & Eco Modes
- 24v & 40v Hedgetrimmers & Grass Trimmers
- 24v Garden Blower
- 40v Chainsaw

COBRA 24V Cordless

24v Handheld Machines Powered By Lithium-ion

Compared with traditional battery technology, Cobra Lithium-ion batteries charge faster, last longer and have a higher power density for more battery life in a lighter package. Cobra's cordless battery technology opens the door to countless uses, even in places with no electricity.

Additional Cobra 24v Lithium-ion batteries and chargers are available:

- 24v Lithium-ion Battery (Part No: 24V2AHLI)
- 24v Lithium-ion Charger (Part No: 24V2AHCHARGER)

Benefits of Lithium-ion Technology

- | | |
|-------------------------------|-----------------------------------|
| ■ Superior "Useable" Capacity | ■ Temperature Resistant |
| ■ Extended Battery Cycle Life | ■ No Storage Issues |
| ■ Fast & Efficient Charging | ■ Little Maintenance Requirements |

COBRA GT30-24V

24v Cordless Grass Trimmer

The Cobra GT3024V is a high performance cordless Trimmer. It is powered by a 24v Li-ion battery, has a 30cm cutting width and a 90° tilting cutter head which makes for effortless, speedy edging.

Specification

- | | |
|---------------------------------|-------------------------------------|
| ■ 1x 24v Li-ion Battery | ■ Approx 2hrs Charge Time |
| ■ 30cm Cutting Width | ■ 90° Lawn Edging |
| ■ 1.65mm Twisted Cutting Line | ■ Telescopic Height Adjuster |
| ■ Up to 30mins No Load Run Time | ■ Weight: 2.4kg (Including Battery) |

Eco mode is quieter and trims for a longer period of time. Turbo mode is more powerful with stronger trimming and a faster rotating head optimized to cut more.

For easily trimming borders and lawn verges, just press a button to rotate the head through 45°. The guide wheel will then help achieve a beautiful finish.

COBRA H50-24V

24v Cordless Hedgetrimmer

The Cobra H5024V cordless Hedgetrimmer is built to tackle the most demanding jobs. With its 50cm double sided blade, tooth spacing of 15mm and 24v Li-Ion battery it will make light work of hedges.

Equipped with a 19" double sided cutting blade, with a large 15mm tooth spacing.

Vary your speed and work efficiency using either the Eco or Turbo modes.

The integrated Hedgetrimmer blade guard protects the operator from debris.

COBRA BV65-24V

24v Cordless Blower

The Cobra BV6524V cordless Blower is powered by a 24v Lithium-ion battery. This model has turbo and eco modes and is lightweight for comfortable use over longer periods of time.

Vary your speed and work efficiency using either the Eco or Turbo modes.

Powered by a 24v 2.0Ah battery for the ultimate in power and reliability.

The ergonomically positioned controls make operator use more comfortable.

COBRA 40V Cordless

40v Handheld Machines Powered By Lithium-ion

One Battery Fits All, 40v Cobra Cordless System

Cobra's 40v Li-ion system consists of a range of 3 Lawnmowers that come complete with 1 or 2 batteries and 3 handheld garden tools. All Lawnmowers and garden tools in this range can be powered from a standard 40v Samsung battery and charger system.

Additional 40v Lithium-ion batteries and chargers are available:

- 40v Lithium-ion Battery (Part No: 40V4AHLI)
- 40v Lithium-ion Charger (Part No: 40V2AHCHARGER)

COBRA GT3240VZ

40v Cordless Grass Trimmer (Battery not included)

The Cobra GT3240VZ is a high performance cordless Grass Trimmer. It is powered by 40v Li-ion Samsung battery (**Battery not included**) and has a 28 - 32cm cutting width.

Specification

- | | |
|--|------------------------------------|
| ■ 1x 40v Li-ion Battery (Not incl.) | ■ Approx 90mins Charge Time |
| ■ 28 - 32cm Cutting Width | ■ 7500rpm No Load Speed |
| ■ 1.6mm Twisted Cutting Line | ■ Weighs 2.9kg (Including Battery) |
| ■ Up to 80mins No Load Run Time | ■ Batteries Available Separately |

For maintaining lawn edges the Cobra GT3240VZ has an easy rotating cutting head.

The 1.6mm twisted cutting line easily makes light work of tough trimming tasks.

Using the Cobra GT3240VZ is even easier with the intuitively positioned controls.

40v Li-ion Samsung Battery (**Not incl.**)

COBRA CS3540VZ

40v Cordless Chainsaw (Battery not incl.)

The Cobra CS3540VZ 40v cordless Chainsaw is built to tackle the most demanding jobs. Whether you're pruning or cutting firewood, the CS3540VZ with 14" Oregon bar and chain is up to the job.

Specification

- 1x 40v Li-ion Battery (Not incl.)
- 35cm / 14" Bar Length
- Oregon Bar & Chain
- Up to 50mins No Load Run Time
- Approx 90mins Charge Time
- 5000rpm No Load Speed
- 9.0m/s Chain Speed
- Weight: 5.5kg (Including Battery)

Quick chain tensioning eliminates the need for any tools for tightening the chain.

Oregon bar and chain, the world's leading manufacturer of cutting chain and guide bars.

The ergonomically positioned controls make operator use more comfortable.

COBRA H5540VZ

40v Cordless Hedgetrimmer (Battery not incl.)

The Cobra H5540VZ is built to tackle the most demanding jobs. With its 55cm double sided blade, tooth spacing of 28mm and 40v Li-ion Samsung battery (**Battery not included**) it will make light work of hedges.

Specification

- 1x 40v Li-ion Battery (Not incl.)
- 55cm / 21" Cutting Length
- Double Sided Blade
- 28mm Tooth Spacing
- Up to 85mins Run Time
- Approx 90mins Charge Time
- 1400rpm No Load Speed
- Weight 4.2kg (Including Battery)

Equipped with a 21" double sided cutting blade, with a large 28mm tooth spacing.

The integrated Hedgetrimmer blade guard protects the operator from debris.

Using the Cobra H5540VZ is even easier with the intuitively positioned controls.

COBRA Lawncare Range

16" - 24" Petrol Powered Cultivators

Maintaining gardens with comfort & style

Lawn care Range

Cobra has a range of petrol, electric and hand tools for maintaining lawns and gardens. The range is made up of 2 petrol Cultivators which are powered by powerful Briggs and Stratton engines, 2 electric lawn Scarifiers with both aerating and raking options, 2 petrol lawn Scarifiers, 6 Hand Carts, 3 Spreaders, 4 Sack Trolleys, 2 Log Splitters and a

Range Highlights

- Briggs & Stratton & Honda Engines
- 1300W - 3000W Rated Power
- 13" - 15" Scarifying Working Widths
- 200kg - 300kg Cart Capacities
- Push & Towed Spreader Options
- 150kg - 200kg Sack Trolley Capacities

Robust Tines

1 Steel Tines

With 4 or 6 steel cultivating tines, the Cobra petrol Cultivators are well equipped for turning over soil in medium to large gardens.

Cultivators are useful for turning soil, mixing in compost and fertilizer for soil amendment and loosening soil to help water reach plant roots.

Get the Job Done Quicker

2 16" - 24" Working Widths

The Cobra petrol Cultivators have generous 16" and 24" working widths meaning you can get more work done in a shorter time.

The right sized Cultivator can make short work of preparing soil ready for new plantings and for the mixing in of compost, manure and fertilisers. Get your garden in shape with Cobra Cultivators.

Powered by Briggs & Stratton

3 B&S 500 Series & 850 Series Engines

The 500 series provides the best-in-class performance in its category. It incorporates the latest engine design technologies ensuring optimal torque and efficiency, resulting in lower emissions.

The 850 series engine family utilizes Over Head Valve (OHV) technology, which runs cooler and cleaner - delivering more power, longer engine life and improved fuel economy.

COBRA T40B

16" Petrol Cultivator Powered by B&S

With exceptional performance and style, the Cobra T40B Cultivator is powered by a Briggs & Stratton 500E series engine has a tilling width of 16" and 4 high quality steel tines.

Specification

- B&S 500E Series Engine
- 140cc Displacement
- 40cm / 16" Tilling Width
- 3600min-1 Rated Speed
- 280mm Blade Diameter
- 250mm Tilling Depth
- 4 Steel Tines
- Ergonomic Controls

COBRA T60RB

24" Petrol Cultivator Powered by B&S

The Cobra T60RB Cultivator is powered by a Briggs & Stratton 850E Series Ready Start engine, has a tilling width of 24" and 6 high quality steel blades. The T60RB also has a reverse gear and crop protectors.

Specification

- B&S 850E Series Ready Start
- 190cc Displacement
- 60cm / 24" Tilling Width
- 3600min-1 Rated Speed
- 280mm Blade Diameter
- 250mm Tilling Depth
- 6 Steel Tines
- Reverse Gear

COBRA T40B

16" Petrol Cultivator Powered by B&S

With exceptional performance and style, the Cobra T40B Cultivator is powered by a Briggs & Stratton 500E series engine has a tilling width of 16" and 4 high quality steel tines.

COBRA Lawncare Range

13" - 14" Electric Powered Scarifiers

Single Lever Height of Cut

1 -10mm - +10mm Working Depths

The Cobra S32E has 5 working heights ranging from -10mm up to +10mm and the S36E has 4 adjustable working heights ranging from -10mm up to +5mm for tackling your grass.

All this is achieved by simply using the single working height adjustment lever. Depending on the depth that you would like to scarify, you can easily and efficiently adjust the cutting height to suit.

Combined Blade System

2 2-in-1 Blade System

The Cobra S36E electric Scarifier comes with a 2-in-1 - scarify and rake - combined blade system which has both blades and tines together on one drum for taking care of your lawn.

Scarifying is a process that's best described as a mechanical raking of the lawn. The main purpose is to remove thatch, moss and dead vegetation.

Aerating / Scarifying Drums

3 Aerating Blade / Scarifying Tine

The main reason for aerating is to alleviate soil compaction. Compacted soil has too many solid particles in a certain volume or space, which prevents proper circulation of air, water and nutrients within the soil.

The Cobra scarifying drum has a series of sharp tines that rotate at high speed and cut into the turf in a vertical manner.

COBRA Lawncare Range

15" Petrol Powered Scarifiers

COBRA S32E

13" Electric Powered Scarifier / Aerator

The Cobra S32E powered Scarifier / Lawn Raker comes with a powerful 1300W motor and has a full 13" working width. The S32E comes with an aerating blade drum and a scarifying tine drum.

Specification

- | | |
|-------------------------------|--------------------------------|
| ■ 1300W Rated Power | ■ 5 Height Adjustment Settings |
| ■ 230V-50Hz Rated Voltage | ■ 30ltr Grass Bag Capacity |
| ■ 32cm / 13" Working Width | ■ Aerating Blade Drum |
| ■ -10mm - +10mm Working Depth | ■ Scarifying Tine Drum |

COBRA S36E

14" Electric Powered Scarifier / Lawn Raker

With its powerful 1800W motor and full 14" working width, the Cobra S36E is fully equipped to gently remove any damaging moss or thatch. Comes with a combined blade and tine drum for ultimate versatility.

Specification

- | | |
|------------------------------|--------------------------------|
| ■ 1800W Rated Power | ■ 4 Height Adjustment Settings |
| ■ 230V-50Hz Rated Voltage | ■ 40ltr Grass Bag Capacity |
| ■ 36cm / 14" Working Width | ■ 2 in 1 Blade System |
| ■ -10mm - +5mm Working Depth | ■ 10m Cable Length |

Powerful Engines

1 Briggs & Stratton & Honda

Powered by Briggs & Stratton and Honda engines the Cobra petrol Scarifiers incorporate the latest engine design technologies ensuring optimal torque and efficiency, resulting in lower emissions.

Ideal for Cobra Scarifiers, these easy starting engines pack a punch.

Comfort, Safety and Control

2 Ergonomic Controls

The petrol Scarifiers have been designed to make scarifying your lawn a simple and effortless task. The ergonomically positioned controls not only make operator use more comfortable, but more importantly, make using Cobra Scarifiers as safe as possible.

3 16 Fixed Steel Blades

The Cobra petrol Scarifiers both come equipped with 16 fixed steel blades.

Large Capacity Grass Bag

4 45ltr Grass Bag Capacity

Equipped with a 45ltr fabric grass bag, ideal for collecting large amounts of garden waste before the need for emptying.

Made from a robust, high quality fabric that enables a strong free flow of air, which means that garden waste collection on these machines is even more compact.

COBRA S390B

15" Petrol Scarifier Powered by B&S

The S390B's powerful Briggs & Stratton 550 series engine drives the 16 steel blades that will delicately but effectively tease-out any moss or thatch that may have accumulated on the surface.

Specification

- B&S 550 Series Engine
- Hand Propelled
- 38cm / 15" Working Width
- 45ltr Grass Bag Capacity
- 0 - 10mm Working Height
- 127cc Displacement
- 16 Steel Blades
- Weighs 33kg

The S390B has working heights ranging from 0 - 10mm.

The Cobra S390B petrol Scarifier comes equipped with 16 fixed steel blades.

Powered by a Briggs & Stratton engine incorporating the latest design technology.

COBRA GCT200P

200kg Tipping Hand Cart

Move garden debris around your garden with ease using the high-quality Cobra GCT200P Tipping Hand Cart. The GCT200P is equipped with a tipping mechanism and 200kg max capacity.

Specification

- 200kg Max. Capacity
- Easy Lifting / Tipping System
- 10" Pneumatic Tyres
- Hand Propelled
- Heavy Duty Plastic Body
- Soft Grip Handle
- 16 Steel Blades
- Steel Frame
- 1090 (L) x 600 (W) x 600 mm

COBRA S390H

15" Petrol Scarifier Powered by Honda

The Cobra S390H petrol Scarifier is powered by a Honda GP160 engine and has a full 15" working width. The S390H comes with 16 fixed blades for the most complete scarifying experience.

Specification

- Honda GP160 Engine
- Hand Propelled
- 38cm / 15" Working Width
- 45ltr Grass Bag Capacity
- 0 - 10mm Working Height
- 135cc Displacement
- 16 Steel Blades
- Weighs 33kg

The Honda GP160 petrol engine offers a quiet, yet powerful and lightweight combination.

The S390H has working heights ranging from 0 - 10mm.

The Cobra S390H petrol Scarifier comes equipped with 16 fixed steel blades.

COBRA GCT300

300kg Hand Cart with Drop Down Sides

The Cobra GCT300 Hand Cart has a 300kg capacity and is complete with mesh drop down sides. It has steering to the front wheels which also have 4 pneumatic tyres with bearings.

Specification

- 300kg Max. Capacity
- Turntable Steering
- 10" Pneumatic Tyres
- Hand Propelled
- Wheel Bearings
- 4 Hinged Drop Sides
- Steel / Mesh Body
- Soft Grip Handles

COBRA GCT320HD

320kg Hand Cart with Drop Down Sides

The GCT320HD comes equipped with 13" pneumatic tyres which help provide stability on rough and uneven areas. The Cobra GCT320HD Hand Cart has a 320kg capacity and is complete with mesh drop down sides.

Specification

- 320kg Max. Capacity
- 13" Pneumatic Tyres
- Wheel Bearings
- Steel / Mesh Body
- Turntable Steering
- Hand Propelled
- 4 Hinged Drop Sides
- Soft Grip Handles

COBRA GTT450

250kg Solid Sided Tractor Trailer

COBRA Lawncare Range

1500W & 3000W Electric Powered Log Splitters

Includes a 4-Way Splitter

1 4-Way Splitter Included

The Cobra LS520H horizontal Log Splitter and the Cobra LS600V vertical Log Splitter both include a 4-way splitter.

This wedge speeds up the splitting of larger logs and makes firewood more manageable by cutting logs into 4 pieces with one stroke.

Comfort, Safety and Control

2 Ergonomic Controls

The Cobra LS600V electric Log Splitter has been designed to make splitting your firewood a simple and effortless task.

The ergonomically positioned controls not only make operator use more comfortable, but more importantly, make using your Cobra Log Splitter as safe as possible.

Additional Features

3 Transport Wheels

The LS520H electric Log Splitter comes complete with a stand and transport wheels for easily moving to and from different areas of your garden.

Transport wheels eliminate the need for heavy lifting and make the LS520H a pleasure to use.

COBRA LS600V

3000W Vertical Log Splitter

The Cobra LS600V Vertical Log Splitter features a 3000W motor and has a splitting force of 6 tonnes. It splits logs up to 30cm in diameter and includes a 4-way splitter.

Specification

- 3000W Motor
- 6 Tonne Split Force
- 30cm Max. Log Diameter
- 4-way Splitter Included
- Adjustable Baseplate
- Gripping Jaws
- Transport Wheels
- Ergonomic Controls

COBRA LS520H

1500W Log Splitter

With its 1500W powerful motor and 5.5 tonnes of splitting force, the Cobra LS520H is capable of handling most domestic log splitting tasks. It couldn't be easier to use splitting logs up to 25cm in diameter.

Specification

- 1500W Motor
- 5.5 Tonne Split Force
- 25cm Max. Log Diameter
- 4-Way Splitter Included
- Carry Handle
- Transport Wheels
- Supplied with Stand
- Ergonomic Controls

COBRA LR40

20" Garden Roller

The Cobra LR40 Garden Roller has been designed for easy operation and to create a beautiful finish. The 50cm / 20" roller drum can be filled with either sand or water and has folding handles.

Specification

- | | |
|------------------------------|----------------------------------|
| ■ 120kg (Sand) Max. Capacity | ■ Full Width Scraper Bar |
| ■ 72kg (Water) Max. Capacity | ■ Folding Handles with Soft Grip |
| ■ 50cm / 20" Working Width | ■ Drain Plug Included |
| ■ 42cm / 16" Drum Diameter | ■ Weighs 13kg (Empty) |

Comfort & Control

1 Roller with 'Soft Grip' Handle Bar

Every Cobra Garden Roller comes equipped with comfort handles to take the stress out of rolling your lawn.

The upper handles come with a "Soft Grip" feature for your increased comfort whilst rolling. The upper and lower handles can be easily folded for ease of storage.

Either Water or Sand

2 Can be Filled with Sand or Water

The Cobra LR40 Garden Roller with its one piece steel drum and drain plug has large 50cm / 20" rolling width so you can cover large areas quickly and efficiently.

The Roller can be filled with either sand to give it a weight of 120kg, or with water to give a weight of 72kg.

Large Working Width

3 50cm / 20" Working Width

The Cobra LR40 Garden Roller has a large 50cm / 20" rolling width so you can cover large areas quickly.

4 Garden Roller with Scraper Bar

The Roller is fitted with a scraper bar which prevents debris from building up on the rolling surface of the drum.

COBRA ST210

200kg Sack Trolley

With exceptional performance and style, the Cobra ST210 Sack Trolley has a maximum capacity of 200kg and features a tubular steel frame with pneumatic wheels.

Specification

- 200kg Max. Capacity
- Rubber Knuckle Guard
- Pneumatic Tyres
- Durable Construction
- Steel / Tubular Frame
- Wheel Guards
- Fixed & Folding Baseplate Area
- Quality Design

The fixed baseplate is ideal for transporting smaller items.

The folding toe is suited to carrying white goods and heavier items.

Features protective knuckle guard grips, offering an additional degree of protection.

COBRA ST150

150kg Telescopic Sack Trolley

The ST150 Sack Trolley from Cobra has a maximum capacity of 150kg and features telescopic handles and a folding base plate. The durable construction makes the ST150 suitable for the toughest jobs.

Specification

- 150kg Max. Capacity
- Folding Baseplate
- 10" Pneumatic Tyres
- Plastic Knuckle Guard
- Steel / Tubular Frame
- Durable Construction
- Telescopic Handles
- Weighs 10kg (Empty)

COBRA ST250

200kg Sack Trolley

The Cobra ST250 2-in-1 Sack Trolley has a maximum capacity of 200kg and can be changed to be used as either a standard Sack Trolley or a flatbed truck within seconds.

Specification

- 200kg Max. Capacity
- Fixed Baseplate
- Pneumatic Tyres / Castor Wheels
- 2-in-1
- Steel / Tubular Frame
- Wheel Guards
- Mesh Cover
- Durable Construction

The Cobra ST250 can be used in two orientations - a flatbed truck, for those slightly wider products or a standard Sack Trolley. No more hassle of two trolleys.

The loop handle on the ST250 is set at a tilted angle providing greater leverage.

COBRA ST200

200kg Sack Trolley

The Cobra ST200 Sack Trolley has a maximum capacity of 200kg, a tubular steel frame with 10" pneumatic tyres and is incredibly lightweight at just 12kg.

Specification

- 200kg Max. Capacity
- Durable Construction
- 10" Pneumatic Tyres
- Quality Design
- Steel / Tubular Frame
- Tilted Handle for Greater Leverage
- Loop Handle
- Weighs 12kg
